

**DESCRIPTION** The Grace Suspension lamp looks like a material fragment floating in space. Crystal, amber, or smoke colored Murano blown glass trihedrons shape the light generated by the LEDs, which are positioned in a central cylindrical body, propagating it within the surrounding space. Grace is available as a single suspension in two sizes, S and L, and as a Composition of three elements, offering different configurations with the same expressive identity. Formal rigor and elegance meet in a suspended structure where the lightness of the glass acquires an intense expressive charge.
